#### MERRY CHRISTMAS.

Another good full week to Christmas with two Sundays intervening before the world's glorious holiday arrives, leaves ample time for our more fortunate citizens to remember the wants of the poor others less favored by fortune rejoice during the happy season.

At what time, on what occasion can we better include in the charity enjoined prompts us to act with generosity towards the poor? On Christmas Day all hearts uld be made glad, and "The Evening World" will, as usual, do its share thi year towards bringing joy to the poor children through its well-fided frees welcome gifts. time to make this year's Santa Claus festival a great soccess, and it is to be hoped that subscriptions to the Christmas week, both in money and in useful con

#### A PEEP BEHIND THE CURTAIN.

Last year, during the legislative ser sion, there was much talk about loose methods in the management of State hospitals for the insane, and especially of that at Middletown. Last week Gov Flower, assisted by Comptroller Campbell and Dr. MacDonald, of the Stare Lunacy Commission, held a sort of love- "The Evening World" ... feast with the President, Superintendent Previously asknowledged.... and some of the trustees of the Middle- Pair, Balsy Club, Brooklyn. town institution, and the management Basting's Friend. and expenditures of the hospital were frinary discussed.

Gov. Flower was rather severe on the L. Long Island City Tork.

Gov. Flower was rather severe on the "gifts" that had from time to time been made by the managers to the attendants and others, and he rederick w Chivvis.

questioned the right of the Trustees Libert Smith, Nyark, N. Y.... to give away the State's moneys. The Arthur .. Smoking in the streets of New York is a nuisance when indulged in by a soft the hospital, approved by the Superintendent, for September which he thought Evalina Dougherty. Comptroller Campbell might hesitate about auditing. Its amount in gross is between \$800 and \$900, and among the Edita. of the steamship Gellert not to break items are five gailons of French brandy. items are five gallons of French brandy, three cases of Mumm's extra dry, and cases of cliquet. # BRAIN FRESHENERS.

1 This column is for muthematical problems. On he popular kind that exercise and refresh the menta culties and do not require elaborate algebraic solution will be printed. Our type does not include algebraic signs, so it will be impossible to give into less than 100 words. Long letters cannot be unsucre in which these are used. The names of the printed. first ten persons sending correct solutions will be printed Address answer to "Problems, Eventry To the Editor:

#### World, P. O. boz 2, 554, New York City. ' ] The Tied Cow and the Barn.

Te the Editor: could graze on the surface of a circle of 100 feet obligation, duty, possibility or contingency." radius from the line OA to the line OD, which Sorely, no same man will pretend that woman is would be three-quarters of the surface of the cir- under any obligation to smoke; that it is her centre, and on the surface of that circle can only be answered by any jelly-brained ignoramus, who so as far as the line FII, which is one-fourth of has never learned anything about the rationale the cost to turn around and go in the opening the cost to turn around and go in the cost of turn around and go in the cost of the cost of turn around and go in the 160 foot circle as ing over a period of more than fifty years. far as the line tit, but as seen as the passed that offer my answer, unbesitatingly; No! Whateve

line she could only grate on part of a circle 75 feet radius, and with E as a centre, and on the surface of that circle can only go as far as the 4.417.875 square feet. But in doing that she grazupon the quarter of a circle (50 feet radius) GKMH, or 1.963.40 square feet, twice. Therefore, three-quarters of the circle ABCD equals 21.563 square feet; one-quarter circle FDH equals 4.417.875 square feet; one-quarter circle AEK equals 4.417.875 square feet, making a total of 2,397,750 square feet, from which deduct one quarter circle GKH, or 1 56° 50 square (est, which eaven 30,434.35 square feet, the answer. W. W. T., Brocklyn.

## No Sheep Cut in Two.

To the Editor: The sheep problem, as put by Robert Quinn, is not capable of mulution. He should have stated that the executors informed the sons that he division could not be made, but that they would divide them in such a way that each son would receive more abeen than were willed to that her interests are at stake, to judge by the them by their father, and then Mr. Quinn should animated manner of her expressions. She refers "How did the executors divide them?" The answer is that they added one sheep of een sheep. They then gave the first son one balf of eighteen sheep, or nine sheep; the second son one-third of eighteen sheep, or six sheep, and the

cutors take back their one sheep. FRANK E. REILLY. \$30 East Eighty-third street.

# The Person in the Boat.

o the Editor: The point 3 miles from the beach is a triffe over 5.53 miles in a direct line to the point which the person in the boat wishes to reach, and, rowing at the rate of 4 miles an hour, it will take 1 hour 27 minutes and 47 seconds to get there. By striking a point on the beach 1 mile Paris, where I spent six months. I live in New rom his objective point, the distance to row will be exactly five miles, requiring just 1 hour 15 minutes to reach. Walking the balance of the listance, 1 mile, at the rate of five miles per our, he will accomplish the whole distance in thour 27 minutes, thus saving 67 seconds.
S. D. B., Portchester, N. Y.

# How He Gets 82.

To the Editor: If there has not been before this date an answer to "Ajax's" great English problem of arranging 4. 5. 6. 7. 8. 9. 0 so as to add the sum 82, I can make it add \$2. There is only one way, and here it in: 60-|-9-|-5 equals 74-|-8 equals 82.

#### 761 Herkimer street, Brooklyn. Problem for a Carpenter.

To the Editor: A carpenter wishes to cut a board I have seven years' experience transversely into two equal parts. Where must

out it? How far from either end? The dinensions and shape of the board are given in the accompanying diagram.

Per Cent. in Poetry. To the Editor: If money were lent at 3 per cent. To those who choose to borrow, What time will I be worth a pound If I lend a crown to-morrow

MAMIE MEGEERAN. 764 Lafayette avenue, Brooklyn.

Pen for the Sheep. To the Editor A farmer has 325 sheep and 25 pens in a squar How must be place the sheep in the pens so that every pen is occupied, each with a different num-ber of sheep from every other pen, and so that every row of five pens, across from every side

string, to which be adds 45 feet 3 inches, which is four-fifths of what he had at first. How much string had he at first? H. J., Brooklyn. To the Editor: More Apples.

A farmer gave some apples to three boys to sell. To one 50 barrels to another 30 barrels, and to the other 10 barrels. They sold them at the same rate and turned in the same amount of money. How did they sell them?

LE ROY W. ALSTON, Russville, S. L. With the Problem Workers. Harold Rudd. Brooklyn, gets \$2 by adding 60 mi 5 and 5, and to their sum, 74, adding 8.

K. S. C., Perth Amboy, N. J.—Your solution of the \$2 problem is wrong. You make use of the figure 4 twice. The Herrings: Correct answer: 12, given by P. G. Mallison avenue, R. Storms, Woodelff, N. Y.; S. D. B., Portchester. R. Storms, Woodcliff, N. J.—We have not algebraic signs in type, so cannot give your lution of the person in the beat problem.

M. L. M. gets \$3 by adding \$3 and \$2, which makes \$4, to which he adds \$ and \$6. This makes \$2, and the numerals are used only once.

Henry M. Miller adds \$ and \$ son \$ subtracts \$6\$ to get \$2, which is wrong, as nothing was said about subtraction in stating the problem. S. D. B., Portchester.—It is difficult to get an exactly correct solution of the tied cow problem. See W. W. T.'s explanation given above. Your dirt problem bas already been given in another form.

# The Use of Tobacco Is Vile.

I entirely agree with "Edward Edwardy" and "I. I. P." in every particular; and also with "H. D. N. Wales," that "women have just as much right to enjoy the pleasure of smoking that (as) the circle or 4 417.575 square feet. Now, suppose of the subject, from books observation or ex-'ladies that are ladies' may do, no intelligent self-respecting woman should, or will, use tobacco in any form as a personal indulgence. Tobacco smoking, in man or woman, is self-defilement a for itself the miserable excuse of an appetite parthe firsh entirely against nature; and, for this eason, more shameful and disgraceful than some Whatever "pleasure" there may be in smoking. the effect upon the physical, intellectual, and moral nature, is evil, and evil only, and that continually. The use of tobacco is not a venial matter; it is not a virtue; it is a vice, a sin, and a crime. It is a sin that is visited upon-God only knows how many generations! H. D. N. Wales may honestly think that "ladies may ment, nothing short of Omniscience can meas ure the height and the depth, the length and the breadth, of that woman's guilt, who, expecting line EIC, which is one tourth of the strole, or over to be a mother abandons herself to the souland body-polluting vice of tobacco-smoking

#### We Want Our Girls to Be Good. o the Editor:

I hardly agree with "A French Girl," who seems to consider it ladylike to enjoy herself as she pleases, without due respect to what is expected of ladies. It is true they have as much right as men, but while men know they are no exempt from a great many babits they enjoy they expect much more of those that nature has aught us to love and respect, and while such actions as my friend refers to are seemingly sanctioned shy some, they would not feel like trust ing them very far out of their sight should they be so bitned by love as to marry one of such a nature as outlined in the letter referred to Her side of the question is well put, and show to Princess Enlalia as an espouser of her cause, but she forgets that she is not an American. We American people have the courtesy to overlook any shortcoming of our guests, in fact, cater to their wants to the best of our ability, but there is no reason why we should overlook the same habits when practised by our own people. sheep, making seventeen sheep, thus giving each in admire the pluck shown, but if it was written nor more then he was initied to, and the ex-I would consider it in a very different light

## Smoked for Five Years.

Mr. Edward Edwardy made a great mistak when he said a woman lowers herself by smok-ing elgarettes. I have smoked them for five years, and do not think I have degraded myself by York City, in West Seventh street, and have man delphia. I entered society last Winter, and know of many of society's greatest belies who smoke cigarettes. Because I say this I hope you will not think I am at all masculine, for I am not and if there is a thing I abhor it is a woma who tries to be a man.

# \$10 a Week Too Thin.

To the Editor: Will C. S., Brooklyn, kindly let "The Evening World' readers know what he lives on? Bread day? It is impossible to pay \$16 rent, gas bills and clothe a family on \$10 a week, unless they make up for it and content themselves by simply contribution in it, make it short, send it smelling other people's mests boiling. I am an experienced woman with a small family, saving

#### naise dressing; vinegar and sait may be added to taste when eating. Artistic Attire.

The eccentricities of attire of the would-be artistic are endless. A pretty girl, who has attained considerable literary prominence as an authority in house decoration, appeared the other evening at an "At Home" in a dress that was the observed of all observers She wore a black slik skirt, with what the English dub a "body" of crimsen plush, and there was a large calla lily pinned against one shoulder. After that one would be forgiven for relying upon one's own taste, however crude, rather than confide to her advice the choosing of one's beds, tables and candlesticks.

Oranges Filled with Jellies. Take half as many smooth, fair

skinned oranges as you will have guests; with a sharp penknife cut a piece from the stem end about the size of a nickel with a tiny spoon work the pulp free from the skin, squeezing it and all th juice out, and being most careful not R. D.—'When was the mariner's compass invested?' It was never invested. It grew. It in water until you have the jelly made. Was used by the Chinese before the Christian era. It was known to the earlier navigators in its crude beginning. to puncture the skin. Throw the skins William Bowie, Stockholm.

Sheep Frablem: Correct solution given by Frank E. Reilley above; also by Mrs. E. D. Johnson. Bloomingdale, N. J.; R. H. Roberts, 49 Heyward street, Brookiya; Elmer E. Bramer, 72 Horation for on the earth, 4000 miles from the sea level. We live street, Recokiya; Elmer E. Bramer, 72 Horation from the centre and 21,000 miles from the surfacest; Al Ellison, 231 East Forty-ninth street; Thomas J. Hamilton, 124 Sanda street, Bramer, 12 Horation from the centre and 21,000 miles from the surface, at the bottom of a gas ocean and the surface, at the pulce, a third with juice expressed from the ocean. The true diameter of the juice, a third with juice ocean, and the surface, at the surface, at the bottom of a gas ocean and the surface, at the surfac on small cups so that they can remain when she leaves the stage.

upright. Put on the bit of skin cut from Here are some of the dainty garments each, and when the jelly is cold it will that go to make up a prize baby outfit. be found to have adhered. When ready Whoever writes the best subscription let- to use cut them in halves or quarters, ter to "The Evening World" Caristmas- using your very sharpest knife. Ar-Tree Fund before Wednesday, Dec. 29, range on a pretty dish with smilax and flowers. The outside of the shells must be kept clean and free from contact with the jelly, or they will need the

#### addition of finger bowls. To Blanch Almonds.

Miss Ignorance.—Blanched almonds are those that have had the thin skin removed. In order to blanch them they must be shelled, then thrown into boiling water, and let stand on the back part of the stove five minutes, then throw them into cold water and rub them be-

ween the hands to remove the skin. Expensive for Northerners. The housewives in Florida have found a new use for oranges. They scrub the floors with them. Go into almost any town in the orange-growing districts, and you will see the women using the luscious fruit exactly as our housevives use soap. They cut the oranges in half and rub the flat exposed pulp upon the floor. The acid in the oranges doubtless does the cleansing, but at any

of the additional acidity, but have never seen them tried. A Pretty Ornament.

rate the boards are as white as snow

after the application. I have often

thought that lemons would be better

than oranges for this purpose because

In a charmingly furnished apartment, where the space is very limited, the substitute for the cumbersome buffet is a spot of beauty in the little dining-room. Two skeleton shelves have been made of walnut, and placed in one corner against a piece of dark-red matting tacked upon the wall. On these shelves rich blue china is arranged with a most delightful effect.

Chicken on Couquille.

This is delicious for lunch or supper

or may be served as a separate course

at dinner. Precare a nice young chiegen es for boiling and put in a kettle with a quart of boiling water, a bay leaf, two cloves, half a small onler, a blade of mace, half a dozen peppercorns and some parsley; cover and simmer until very tender; let it stand until cold in the liquor in which it was cooked. Then remove the white meat from the bones and cut into dice. Put one tablespoonful of butter in a saucepan, add a rounded spoonful of flour and mix over the fire until smooth; add half a pint of milk cream or the liquor in which the fowl was cooked, and stir until the sauce bolls and thickens. Season to taste and add the chicken meat. Put this saucepan over boiling water and stir very hot, when the yolks of two eggs lightly beaten are to be stirred in.

## erve on sippets of toast or in little Cold Sore.

It is very vexing and annoying to have

nuch to do with the tumult in the

it is better to have them out than in. A drop of warm mutton suet applied to the sores at night, just before retiring, will soon cause them to disappear. The Queen of Hawaii. Queen Liliuokalani, who has had so

Sandwich Islands, is a large, coarseappearing, copper-colored woman, not at all such a person as one would naturally idealize in a queen. Yet she bears herself gracefully in public, and in her official relations bears herself with be coming dignity. Seen on the streets in the United States, she would attract no particular attention, except it might be from some thrifty housewife in search of a good, strong kitchen domestic. She is said to be, however, race, a woman of warm sympathies and generous impulses; but whether merited or not, it is a deplorable fact that her private character is unblushingly ban-

died about in a shameful manner by the people of her own dominions The population of the islands that were hers is 89,000. But it costs \$3,500,000 a year to run the Government. The Queen got \$20,000 for her private purse, outside of the \$80,000 allowed her for the household expenses of her palace of

Iolani and \$3,000 for her chamberlain.

For Chapped Lips.

A good remedy for chapped lips is made

by mixing together two spoonfuls of clarified honey with a few drops of lave dar water. Anoint the lips with the mixture frequently. Green and Red Shot Hopsack.

This is a graceful gown, made in graces

he plaited basques which are so universally becoming, and prettily cut revers of the fashionable black moire, arranged in a most effective fashion.

"Mocking Catching." An actress who has played for several

years the part of an old and crooked woman in a play that has had an extended run is obliged to give up the role for a curious reason. She finds that she is growing one-sided and to have a pronounced stoop, that does not vanish
